RING SIZE GUIDE

We created this guide to help but we highly recommend going to a local jeweler and getting sized in person.

If you have any questions please email info@almamylove.com before purchasing

Step one: Verify printing scale.

1. Ring measurements are very precise. Carefully follow these instructions to obtain an accurate measurement.
2. Prior to printing, ensure that Page Scaling is set to "None" on your print dialog box.
3. Measure the bar below. It must be exactly 1 inch or 30 mm long.

Measurements match the inside edge of the ring.

Step two: Measure current ring

1. Select a ring that properly fits the intended finger. (Engagement and wedding rings are traditionally worn on the ring finger on the left hand in the United States.)
2. Place the ring over the circles below, matching the inside edge of the ring to the circle nearest in size. This measurement refers to the inside diameter of the ring.
3. If the ring falls between two sizes, order the larger size
